

When you need to

REDUCE ON-HAND INVENTORY

and optimize supply chain performance

**CUT WASTED
STOCK TO** LESS THAN **1%**

Expect more from your distributor.

To reduce your supply spend, think beyond transactional savings – think lean inventory management, accurate tracking and forecasting, and achievable results. If your current supplier isn't helping you excel, it's time to partner with Suture Express. In addition to just-in-time delivery on the largest selection of surgical products, we offer enhanced visibility into your product usage and inventory value, along with expert recommendations on PAR levels and other performance improvement opportunities. Join Suture Express and make a difference in your supply chain.

When you **NEED** to:

Reduce your inventory.

RESET, our PAR Optimization Program, shows you immediate opportunities for **inventory reduction**. You also receive continuous, customized **PAR level guidance** to help you find and **keep the right balance** as your usage changes over time.

Lower your carrying costs.

With RESET, you'll **save up to 30%** in year one by clearing your shelves of excess and slow-moving inventory. With our 99.4% next-day fill rate on 6,000+ surgical SKUs, you can trust our **just-in-time delivery** to **eliminate waste** associated with stockpiling.

Make data-driven decisions.

RESET brings information right to your desktop. **Detailed reports** include product usage, PAR level changes, inventory turns and more. You'll also get annual **savings scorecards** and **real-time notifications** for expirations, recalls and safety alerts.
